About us

Who we are:

The business in which surgical equipments was manufacturing started from our late grandfather Mr. Bashir Khan Sherwani in 1951. He was very hardworking person. With the passage of time, he handed over this entire business to his late son Muhammad Jameel Khan Sherwani.

Our Vision:

Stilt at a young age but with a considerable knowledge of all types of instruments, he developed a VISION "for better establishment of the business by intrinsically motivating work with our employees and fulfill the desired requirements of our customers in coming days till end." Days and nights of toil, hard work and innovation led him to his first development;

Standing Position:

The Scalpel Handle little was known to him and created various instruments including Scissors, Forceps and Tweezers. With advent of time, the surgical industry spread out around and he commenced his company by Kingship int. It was introduced with new skilled personals in this field. Now, his hard work paid off; he got proposal of "laryngoscope" in blunder. Time went by and the Sherwani's family ventured in this business and flourished around with 100% great quality instruments at hospitals, clinics and importers as a family business.

Mission

Later, Muhammad Aouf Khan Sherwani the son of Muhammad Jameel Khan Sherwani joined and served the business with his excellent expertise and immense knowledge related instruments became a resource for expanding the business. His great father's MISSION "was to well established this more with more possible ways.

Pakindo Alat Medis

Ultimately, in the year 1989 Kingship int turn to Pakindo Alat Medis around the surgical industry. Above was the simple and inspired beginning of Pakindo Alat Medis established with a single minded with;

Our Aim,

Goal & objective "Providing high quality instruments for life-saving and precision tools for better patient care entire the world same as happy family."

Our Values:

Our core values are our clients life happiness, our revenue will be client's satisfaction with smiles, we are influencing our employee's opinion and facilitate them entire their lives.

Universal curettes are designed for easy adaptation on all tooth surfaces (thus the name "universal").

The blade of a universal curette has a round toe and back, and two cutting edges for scaling, making it an efficient design for scaling the entire mouth.
